

**Don't Bite Me!**  
Natural Simple Safe

Natural Simple Safe  
*Non-Toxic + Environmentally Friendly = Safe*

Studies and tradition have shown that Vitamin B1 metabolizes in the body to reduce human odors attractive to biting insects. Our topical skin patch delivers a blend of Vitamin B1 and Aloe, making it a natural, simple and safe way to deter insects. The Don't Bite Me! Patch delivers an old-fashioned remedy through new technology.

#### Product Features:

- ◇ Waterproof \* Non-Toxic \* Environmentally Safe
- ◇ Lasts up to 36 hours \* Total Body Coverage \* Clear Patch
- ◇ Safe for use on children \* No Sprays, Lotions or Towelettes

#### Why Include the Don't Bite Me! Patch in your 2010 Product Selection?

- ◇ A French study released late summer 2009 links DEET to Central Nervous System Damage.
- ◇ The study, reported by the BBC, shows DEET works in the same way as paralyzing nerve gas.
- ◇ A previous study linked DEET to Gulf War Syndrome.
- ◇ People say they would prefer a product with low toxicity especially if they are going to use it on their children.
